

# Tell Me What He Said (1997 Remastered Version)

Helen Shapiro

I've lost him but I don't know how  
He's going with another now  
He'll be at the party on Friday night  
I'd go there myself, but it wouldn't be right  
But if you see him there  
Please tell him that I care and that I want him back again  
Tell him that and then  
Tell me what he said  
Just take him to a side  
Tell him how much I cried and I'm begging on my knees  
Tell him that and please tell me what he said  
If I hurt him I'm sorry  
Please tell him that I love him  
No matter what the trouble may be  
We can talk it over  
I've never been so blue  
I'll wait right here for you  
But then I know I'd like to try  
If I should ever die  
Tell me what he said  
I've lost him but I don't know how  
He's going with another now  
But if you see him there  
Please tell him that I care and that I want him back again  
Tell him that and then  
Tell me what he said  
Just take him to a side  
Tell him how much I cried and that I'm beggin' on my knees  
Tell him that and please tell me what he said  
If I hurt him I'm sorry  
Please tell him that I love him  
No matter what the trouble may be  
We can talk it over  
I've never been so blue  
I'll wait right here for you  
Then I know it might surprise  
If I should ever die  
Tell me what he said  
Tell me what he said  
Tell me what he said
