

# I Can't Wait

Natalie

I can't wait  
I can't wait until tonight when we can be alone  
I'm gonna make it feel so right can't want to turn you on  
I can't wait until tonight when we can be alone  
I'm gonna make it feel so right can't want to turn you on See me walking in, yes I'd be turning heads  
Smelling so super sweet and making my way to dance  
I see you over there in the corner standing down  
Boy get out of your chair and follow me to the crowd I wanna feel your body next to mine  
How much of me can you take?  
I really wanna know what's on your mind  
'Cause you know that I can't wait I can't wait  
I can't wait until tonight when we can be alone  
I'm gonna make it feel so right can't want to turn you on  
I can't wait until tonight when we can be alone  
I'm gonna make it feel so right can't want to turn you on Let's take a break, sit down and have a drink  
There's plans to make that I know you're coming with me  
I know it seems a little bit out of this world  
I've seen things I like about you come show this girl From these sexy hips to these sexy eyes  
Smooth lips don't you want a taste?  
When we hit the spot boy it's on tonight  
'Cause you know that I can't wait I can't wait  
I can't wait until tonight when we can be alone  
I'm gonna make it feel so right can't want to turn you on  
I can't wait until tonight when we can be alone  
I'm gonna make it feel so right can't want to turn you on I can't wait until tonight when we can be alone  
When we can be alone  
Boy you make me feel so right can't wait to turn you on  
Can't wait to turn you on I wanna feel your body next to mine  
How much of me can you take?  
I really wanna know what's on your mind  
'Cause you know that I can't wait I can't wait  
I can't wait until tonight when we can be alone  
I'm gonna make it feel so right can't want to turn you on  
I can't wait until tonight when we can be alone  
I'm gonna make it feel so right can't want to turn you on
