

Motion Light

Braid

action: gravity gives it away
(and proximity)
and when you add electricity
a motion light give it away
everyone watches as
i do it again
rain and even sliding glass
i wished times before
now i hear a doorhit the floor
i swear i'll stop
if only tonight
i don't stand motionlight
(tristabrand don't tempt me)i'm in the house
i'm on the couch
i'm speechless in the arms
of gravity
