I Wanna Know

Blue

Yeah, Blue
Get to the floor, that's right
Get to the floor, you heard, yo
Get to the floor, get to the floor
Get to the floor, just dance
First grab a lady, know what I'm saying, trust me
Shaped like an hourglass, hello
What's your name and number let me know
You're the baddest thing for sure
Shorty we should do it all tonight
No disrespect to you lady
But your walkie talkie is like crazy
You should get the time to get to know me
Like I said let's do it all tonight
So if you're feeling me
Come put your hands on me
And we can do this all night, ohh
I want you to leave with me tonight
Wanna know what's going through your mind?
Is it that you want me by your side?
Is it that you know I'll treat you right?
I wanna know if you see us holding hands?
I wanna know if you see me as your man?
I wanna know everything that's on your mind
'Cause you're the baddest thing here tonight, trust me
Ohh, got a little dough I've been saving
On you I'm thinking about spending
Here to the mall, walk till you fall
Shorty we should do it all tonight
Got plans to make you my lady
Anything you want from me tell me
Just watch me work it baby
Like I said let's do it all tonight
So if you're feeling me
Come put your hands on me
And we can do this all night
I want you to leave with me tonight
Wanna know what's going through your mind?
Is it that you want me by your side?

Is it that you know I'll treat you right?
I wanna know if you see us holding hands?
I wanna know if you see me as your man?
I wanna know everything that's on your mind
'Cause you're the baddest thing here tonight
Can't you see, baby you and me?
Living life together as one endlessly
'Cause my hopes and dreams
Are so vividly colorful, of painted pictures of us in love
Dance, dance
Get to the floor, c'mon y'all
Get to the floor, yeah, yeah
Get to the floor, c'mon, y'all
Get to the floor, just dance
Get to the floor, c'mon, c'mon
You're the baddest thing up in here tonight, tonight
Get to the floor, baby girl you're looking outta sight
Get to the floor, just dance
I want you to leave with me tonight
Wanna know what's going through your mind?
Is it that you want me by your side?
Is it that you know I'll treat you right?
I wanna know if you see us holding hands?
I wanna know if you see me as your man?
I wanna know everything that's on your mind
'Cause you're the baddest thing here tonight
I want you to leave with me tonight
Wanna know what's going through your mind?
Is it that you want me by your side?
Is it that you know I'll treat you right?
I wanna know if you see us holding hands?
I wanna know if you see me as your man?
I wanna know everything that's on your mind
'Cause you're the baddest thing here tonight
You're the baddest thing up in here tonight
Baby girl you're looking outta sight, ohh
