Without You

Hey Monday

I wanted you here beside me
Cause this time of year gets so cold
Everyone is smiling so brightly
Can't pick myself off the floor
You walked out in November
And I just let you go
It was the biggest mistake
Because
Bells are ringing, all I hear is your voice's
Still singing, moving on was no choice
So I made our tree just like we used to
Christmas just isn't the same, without you
December makes me remember
The way your eyes lit up the snow
You always promised forever
But I guess, I'll never know
They say this is the most wonderful time of the year
But I just wanna disappear

And I think I'm losing my mind
Because
Bells are ringing, all I hear is your voice's
Still singing, moving on was no choice
So I made our tree just like we used to
Christmas just isn't the same, without you
So what am I gonna do (can't go on like this)
Oh, might as well throw out the mistletoe (cause it reminds me of your kiss)
Bells are ringing, all I hear is your voice's
Still singing, moving on was no choice
So I made our tree just like we used to
Christmas just isn't the same, without you
Bells are ringing, all I hear is your voice's
Still singing, moving on was no choice
So I made our tree just like we used to
Christmas just isn't the same, no,
It isn't the same
Just isn't the same
