

# My Love Will Never Fail You

Marie Hines

My Love Will Never Fail You

Hines if©2012

Take a walk in the park  
Holding hands in the dark  
Steal a kiss beneath the stars

My heart beat fast as I looked at you  
And I could tell yours was racing too  
We fell at once, and never looked back

My love will never fail you  
My arms will always save you  
I will make you, I will make you mine

I swear to always fight for us, and  
I swear no one can touch this love, oh  
I will make you, I will make you mine  
For always

We got caught in the rain  
Just two kids at the end of May  
Just trying to figure out what life could hold

See I don't believe in chance  
I think it's the choice we make, oh  
And I choose you for the rest of my days

My love will never fail you  
My arms will always save you  
I will make you, I will make you mine

I swear to always fight for us, and  
I swear no one can touch this love, oh  
I will make you, I will make you mine  
For always

You are all I'd ever need  
And you are more than I could hope you'd be

You are home to me

(Chorus)

---
