

# Charlotte's In North Carolina

[Keith Whitley](#)

I watched the taxi take her away  
Through the window she4 was waving goodby  
There wan't much left to say  
Her last "I love you" was a lie  
Did she leave me for somebody else  
and just leave me behind  
All she left me was by myself  
And if that plane arrives on time(chorus)  
Charlotte's in North Carolina  
Back where she wanted to be  
Charlotte's in North Carolina  
And left me here in St. Louis misery Well, I was kinda hoping she'd call  
To let me know she made it ok  
Now that phone's driving me up the wall  
It hasn't rung all day  
I hope she finds what she's looking for  
That's all that matters to me  
Cause all it cost me was my heart  
To set my sweet Charlotte free(chorus x 2)
