

# Helicopter

## French Montana, Juicy J & Project Pat

[Originally by M. Ward] i am somewhere in the city climbin' up a fire escape  
see i am somewhere in the city climbin' up a fire escape  
you know i got to save my baby from the mess that this world has made  
    oh i arrive through a window  
    leave through a hole in the wall  
    see i arrive through a window  
    leave through a hole in the wall  
you know i got to save my baby as i carry her cradle and all  
    helicopter, helicopter  
    let your long rope down  
you see i swing beneath the sunset  
  
    done all that i can do in your town  
    violence has taken wind out of my sails  
    violence has taken wind out of my sails  
you know i got to save my baby from the mess that this world has made  
    helicopter, helicopter  
    let your long rope down  
you see i swing beneath the sunset  
    done all that i can do in your town  
i am somewhere in the city climbin' up a fire escape  
see i am somewhere in the city climbin' up a fire escape  
you know i got to save my baby from the mess that this world has made
