What a Man, My Man Is

Lynn Anderson

Goodbye blues I'm not gonna sing you no more
I finally got my hands on what I've been looking for
I've found me a man that knows how to keep me
Sittin' up on cloud nine
Talk about the sunshine, I've seen all the timeMan, what a man, what a man, what a man, my man is
There's not a day when he doesn't say he needs me and loves me
Man, what a man, what a man, what a man, my man is
He's always around when I'm down the most
With two lovin' arms to hold me close
Man, what a man, what a man, what a man, my man isHello rainbow I've finally found your pot of gold
I finally got my hands on a real live dream I can hold
I've found me a man that knows how to keep me
Eatin' from the palm of his hand
Talk about the sunshine, I've got the sunshine manMan, what a man, what a man, what a man, my man is
There's not a day when he doesn't say, he needs me and loves me
Man, what a man, what a man, what a man, my man is
He's always around when I'm down the most
With two lovin' arms to hold me close
Man, what a man, what a man, what a man, my man is
