

Shine Supernova

Cody Simpson

Flying through the galaxy, with Supernova energy.
Under pressure, together.
We're much so better.
So much better you know.
And if a shooting star cross the sky tonight
We'd be super heros
Winning every fight
Side by side
We come alive
Standing on your shoulders I can touch the sky Out of the darkness
Blazing
You know how we made it
Burning bright as the sun is fading
Shine
Shine
Shine
and we
Shine
Shine
Shinejust like a supernova
Burns so amazing
We fly high and watch how
You make me
Shine
Shine
Shine
and we
Shine
Shine
Shine
Together we shine Force field made of you and me
Nothing can stop this energy
Together
Forever
We're so much better
So much better
You know Breaking through reality
We're soaring to infinity
There's no measure

Wherever
We fly together
Defying gravity
And if a shooting star cross the sky tonight
and every planet in the universe align
Side by side
We come alive
Standing on your shoulders I can touch the sky
Out of the darkness
Blazing
You know how we made it
Burning bright as the sun is fading
Shine
Shine
Shine
and we
Shine
Shine
Shine just like a supernova
Burns so amazing
We fly high and watch how
You make me
Shine
Shine
Shine
Together we shine
Together we shine
Shine
Shine
Shine
Together we shine
Together we shine
Supernova baby
Oh yeah
Together we shine
