# Bingo

## S.M.N.

caught me faking, at least i tried
totally mistaken, unidentified
hypocrisy, shamelessly
fortunately before i could plant the seed
i want to tell you everything
but i can't, no
i want to tell you all these things
let's just forget it
my quote unquote sick mind
cannot understand, just undermine
analyzing everything
picking apart every seam just for a sign
i want to tell you everything
but i can't, no
i want to tell you all these things

but it seems that you have found
lately something better to do
with your mind and your time
yeah, you, have found
lately something better to do
with your mind and your time
call me hard, insolent
tainted by the thoughts of all that i resent
believe i can do as i said
been collecting dust inside this hollow head
but it seems that you have found
lately something better to do
with your mind and your time
yeah, you, have found
lately something better to do
with your mind and your time
