Walking On Water

Ivor Slaney

Don't say its over,
Don't breathe a word,
How was I so oblivious,
I didn't see how we got so deep down,
When we were walking on water for so long,
I didn't notice the waves crashing over,
I thought we were sailing somewhere,
When did we start going under?
Now I see your colours,
And now I hear your truths,
I need something to pull us outta here,
If we could get back up to the surface,
Tell me could it be,

Like when we were walking on water for so long,
I didn't notice the waves crashing over,
I thought we were sailing somewhere,
When did we start going under, under?
Cause you made me wanna fight,
Cause I found something to believe in,
You made me who I am,
And it's so hard to see how we're so deep down,
When we were walking on water for so long,
I didn't notice the waves crashing over,
I thought we were sailing somewhere,
When did we start going under?
