Out With the Girls

Jade

Di, are you ready? Yes, I'm ready
T, are you ready? Yes, I'm ready
Joi, are you ready? [incomprehensible]Boy, I need some time
Some time to get out and relieve my mind
Boy, I need a change
I just wanna kick it with my girls tonightIt's a girls thing, if you can understand
Girl's got to do what a girl's got to do
Don't take it personal when you hear mama
She's still into you, boy, you know that it's trueI'm going out with the girls tonight
We're gonna have ourselfs a real good time
I'm going out with the girls tonight
And everything is gonna be alright, alrightBoy, don't be upset
When I get home I'll make it worth the wait
Gotta have a night to call my own
It doesn't mean I don't want your loveIt's a girls thing, if you can understand
Girl's got to do what a girl's got to do
Don't take it personal when you hear mama
She's still into you, boy, you know that it's trueI'm going out with the girls tonight
We're gonna have ourselfs a real good time
I'm going out with the girls tonight
And everything is gonna be alright, alrightI'm going out with the girls tonight
We're gonna have ourselfs a real good time
I'm going out with the girls tonight
And everything is gonna be alright, alrightIt's a girl's thing now baby, let me tell you
Just leave some time to get myself together
Can't you understand you're still my man?
It's a girls night out tonightIt's a girl thing now baby, can you get it?
I can live my life and we can still share it
Can't you understand you're still my man?
It's the girls night out tonightI'm going out with the girls tonight
We're gonna have ourselfs a real good time
I'm going out with the girls tonight
And everything is gonna be alright, alrightI'm going out with the girls tonight
We're gonna have ourselfs a real good time
I'm going out with the girls tonight
And everything is gonna be alright, alright
I'm going out with the girls tonight
We're gonna have ourselfs a real good timeIt's a girl thing now baby, let me tell you
Just leave some time to get myself together

Can't you understand you're still my man?
It's the girls night out tonight
