This Is My Life

Tiffany Giardina

Verse1:
It's funny to see you standing there
I guess It's the dare
Looking strong as if you'll be a winner
Although,the match is over
I'll never let you take me down
Take a look at the outside
Sorry girl,I have to mention
The result of our competition
Chorus:
Get ready for the first time
To see me from the inside
From now on I'll live my life
So,You better not mess with me around
And Next time i'll say it loud
When I pass you by
I will just remind you how
i made you step aside
Be a good girl,And Keep it on mind
It's time to show you the way I am
What I say
The way I play
Verse2:
So,One two three
The race began,I do not fear
There's no turning back,
This was my chance
Counting the seconeds
Watching me from a distance
It's not what it supposed to be
Anyway,there's much more from me to see

Chorus:
Get ready for the first time
To see me from the inside
From now on I'll live my life
So,You better not mess with me around
And Next time I'll say it loud
When I pass you by

I will just remind you how
i made you step aside
Be a good girl,And Keep it on mind
It's time to show you the way I am
What I say
The way I play
Bridge:
I'm not the girl that pretends to be
someone who she wishs to be
Let me whisper to you an advice
Pack your bags and say good-bye
Chorus:
Get ready for the first time
To see me from the inside
From now on I'll live my life
So,You better not mess with me around
And Next time i'll say it loud
When I pass you by
I will just remind you how
i made you step aside
Be a good girl,And Keep it on mind
It's time to show you the way I am
What I say
The way I play
