

# Always on My Mind

## Stee Downes

i feel you i know you  
i need control you  
your touching your breathing  
i hope that you won't stop believing  
I'm holding I'm rolling I'm weakening  
i hope that it showing  
I'm learning receiving i know that we both be relieving

whatevers been happening lately its all up to you  
to tell me that you can only be yourself

you tell me what you wanted me to do

i know i want to keep this sacred  
i don't want to loss so i can only say I'm patient  
but i know exactly what you wanted me to choose  
you always on my mind but we just can't get it right  
you are always on my mind but we just can't get it right

but we just can't get it right

you are always on my mind

but we just can't get it right

and i feel you feel this inside see that you want it no that its right now that we have to loss this disguise unlock  
the mystery that were keeping inside

i know this feeling i made it clear

baby when we touch we make it disappear

i play myself now taking charge

i need your loving i need you here

I've climbed a mountain I've towed a line

if only i can read your mind

you are always on my mind but we just can't get it right

but we just can't get it right

you are always on my mind

but we just can't get it right
