

Love of Your Life

Red Hot Chili Peppers

Sat on a cliff wondering what did I miss
I watched the waves come in
Roll in, roll out, without a single doubt
Lone on the bluff, is there ever enough
I stare into the air, somewhere out there
The family affair, bring home the night
There I know that you turn off the light
The-e-e-re so slow but you gave me the love of my life
She gave me the love
Coming up short and I'm sad to report, with us invite tonight
Your kiss, my kiss, another day to waste
Lovers don't miss, when they can't even face a plot that has a twist
To share, my prayer, I need my baby bed
Come home tonight
Whoa
There I know that you turned off the light
The-e-e-re so slow but you gave me the love of my life
There I know that you turned off the light
The-e-e-re so slow but you gave me the love of my life
There I know that you turned off the light
The-e-e-re so slow but you gave me the love of my life
There I know that I waited so long
The-e-e-re so slow but you gave me the love of my life
Oh she gave me the love of my life
Tell 'em Flea, go ahead
