

# Dry Ground

## Seasons Lost

Everything's changing there's nothing new in our everyday lives  
So loved ones are aging we all grow in wisdom through time  
We've all seen homes fall apart  
We've taken the time to sort it all out.....

Where is the positive influence?  
Where is the family as one?  
Where did all the morals go?  
The youth sped up so fast with no time to grow???

It's dragging you down, it's pulling you down, when you're thinking about sinking you've got to swim to dry  
ground.
