Brave New World

Steve Miller Band

We're driving fast
From a dream of the past
To the brave new worldWhere nothing will last
That comes from the past
It's a brave new worldPut a smile on your face
As we walk with space
In the brave new worldNow, as you begin
You're born once again
With the rising sunSomething new, nothing old
Something true, something goldNo spirit of the past
Can hold you back
From the brave new worldThe direction to start
Is inside your heart
To the brave new worldIf you're free in your heart
You can make a new start
It's a brave new worldThere's nothing to hide
Leave your troubles behind
It's a brave new worldI told you, my friend
And I'll tell you again
Your trip has begunSomething new, nothing old
Something true, something goldThe direction to start
Is inside your heart
To the brave new world
