

# Back To the Start

## SoMo

She wanted my heart,  
Wanted my soul,  
Wanted that loving  
But I ain't tryna hold on to her heart  
To see it fold.  
Girl's holding on to the thought so tight  
Holding on for her life  
I just might have to give it to her,  
For one loving night.  
She whispers so slow  
Said to my ear, "I love Somo."  
I said, "you just wanna get in my pants,  
'Cause I'm 'bout to get that dough."  
She says, "I like it fast."  
I say, "Why you gotta rev my gas?"  
Next thing I know,  
I'm standing in my front door tryna stop my hands I just wanna take your picture  
Go 'head stand there in the door  
Let's get naughty, let's get naughty  
Take your body to the floor  
Take that thing and make it drop  
Come over and show me more  
Hold me softly, I'll keep going  
Till you're screaming and you're sore And we live for that rush.  
And we rush for that love.  
And we love for that one  
That just straps up your heart.  
And you're back to the start again  
That just straps up your heart.  
And you're back to the start She's dripping to the core  
Says to me, "can I explore  
Your body, feeling exotic  
And I just need a little tour."  
We start off just by touching  
Then we go on to rubbing  
She says "I'm on top  
Let me ride."  
I say, "uh-uh, I'mma get that loving."  
I thought you could take it fast

Yeah, you like it when I slap your ass  
Take it all, I'mma go deep  
Keep it so sweet, one night to make it last  
She's close, I'm about to wrap  
She can't open up her eyes  
I'm driving deep and her body's so weak  
And I can't let go inside I just wanna take your picture  
Go 'head stand there in the door  
Let's get naughty, let's get naughty  
Take your body to the floor  
Take that thing and make it drop  
Come over and show me more  
Hold me softly, I'll keep going  
Till you're screaming and you're sore And we live for that rush.  
And we rush for that love.  
And we love for that one  
That just straps up your heart.  
And you're back to the start again  
And she prays for the love  
So I stay and we run  
Sends a wish on a star  
Now just wraps up her heart  
We were trapped from the start So we live for that rush.  
And we rush for that love.  
Why can't we
