

# Devil's Inside

[Mindy Smith](#)

Wife, why were you thinking  
If you won that last fight?  
Husband stopped all his drinking  
That you'd quit losing your mind  
It's those devils inside  
Those demons you hide  
Well, they keep your angels inspired  
So thank god for the devils inside  
Do you believe by his going?  
That you'd have that new start  
'Cause there's something he's holding  
That built who you are

It's those devils inside  
Those demons you hide  
Well, they keep your angels inspired  
So thank god for the devils inside  
Perspective is everything  
You can choose how you lose  
Or you can choose how you win  
Keep those devils inside  
Those demons alive  
They'll keep your angels inspired  
Thank god for the devils inside
