Hello Love

Blossom Dearie

Hello love
Awfully glad you've found me
Hello love
Spread your glow around meThe door's been open
But where have you been?
I've been here hopin' you'd let yourself in
And grin andHello love
I can tell you're near me
Hello love
Now at last you hear me
I know someday you'll be returning up above
What's that, you say
You're here to stay
Hello, hello loveHello love
I can tell you're near me
Hello love
Now at last you hear me
I know someday you'll be returning up above
What's that, you say
You're here to stay
Hello, hello love
