Beyond Clueless

Summer Camp

She knows everything about everyone
She's a star, she's the only one to belong
She feels bad for you that you don't compare
She knows it's hard when she sees, she sees you stare
She's the still point of the turning world
She thinks everybody's in love with her
She's a stone cold fox
She's a stone cold foxAnd the trees like lungs filling up with air
My sister, the mean one, pulling my hair
And those girls, they were just women in disguise
They understood it all, there was darkness and pain in their eyesIt only matters that we loved them
It only matters that we loved them
It only matters that we loved themHe's fit but he's a waste of yearbook space
An institution in this place
His soulless and honored and his car is a ford
He's past, present, he can't be ignored
He can't eat, he can't sleep 'cause he thinks that he's in love with her
He's the bravest, he's the bestestAs above, so below
No place left to go
Those boys became men, yeah, they wanted it so
And they had it all laid out right before they eyes
When night comes the darkness ruins their disguiseIt only matters that they loved us
It only matters that they loved us
It only matters that they loved us
(x2)I will remember you
(It only matters that we loved them)
I will remember you
(It only matters that we loved them)
I will remember you
(It only matters that we loved them)
I will remember you
