

Saving Grace

Stellar Revival

I remember when I saw your face
It was the saving grace to my soul
I remember the first time we kissed
It was more than a kiss, now I know

I was down and out
I was lost then found
And it's you that made me believe

That there's something more
I've been waiting for
And it's right in front of me

I, I'd reach for the sky
And pull down the stars for you
If you want me to
And I'd take the light that you gave me
And shine it on your dark days
'Cause your my saving grace

All the times I've felt I had enough
Felt like hell givin' up
I can't breathe
You came along when the road was gettin' rough
And baby you make me believe

That there's something more
I've been waiting for
And it's right in front of me

I, I'd reach for the sky
And pull down the stars for you
If you want me to
And I'd take the light that you gave me
And shine it on your dark days
'Cause your my saving grace

Took all I could take
All that pain was worth it

'Cause baby you're perfect

I remember when I saw your face
It was the saving grace to my soul

I, I'd reach for the sky
And pull down the stars for you
If you want me to
And I'd take the light that you gave me
And shine it on your dark days
'Cause your my saving grace

I, I'd reach for the sky
And pull down the stars for you
If you want me to
And I'd take the light that you gave me
And shine it on your dark days
'Cause your my saving grace
