Another Show

The O.C. Supertones

I love the way this feels
To tell the truth real
The music hits your head and chest
And now you know the deal
Given the dream when I turned nineteen
And the last four years we've been playing to whoever
The six of us together headed out to wherever
Four years older, twenty three wiser
Still not tired of going off like geyser
We ain't everything that we're cracked up to be
Down with the king like jay and run dmc
Step on the stage, move the groove steadily
Keep our heads on and splurge the word readilyChorus:
Another night, another show
My whole soul's fired up and ready to go
(repeat)No wait, don't turn away
There's something I must say
If god's not glorified
We shouldn't be here today
'cause if we ain't speaking christ
We ain't speaking nothing
Look into my eyes and
You tell me if I'm bluffing
From here on out we're going all out light it up with no doubt
Evangelize and edify that's what we're all about
Don't know what God has in store
But that's the way we're headed
With the pedal to the floor
