

Song of You

Rufus Wainwright

So you want a song

So you want a song

A song just for you

There are many melodies to choose from but there's only one of you

So I'm gonna fly in the sky so high in the wind

And I'm gonna try really, really try so hard not to give in

And find the song of you So I'm gonna run and hide my head in the sand

And I'm gonna think really, really think so hard to try and understand

And find the song of you

The song of you So you want a song

So you want a song

A song just for you

There are many lyrics to choose from but there's only one of you So I'm gonna fly in the sky so high in the wind

And I'm gonna try really, really, really try so hard not to give in

And find the song of you

So I'm gonna run and hide my head in the sand

And I'm gonna think really, really, really think so hard to try and understand

And find the song of you

The song of you

So you want a song

So you want a song

A song just for you
