Talk About Love

The Judds

Love, talk about love
Why do you always wanna talk about love?
Love, talk about love
Why do you always wanna talk about it?
I say that love is something you feel
You know in your heart, if it's real
But you've got to analyze
Organize, synchronize, formalize and compromise
Love, talk about love
Why do you always wanna talk about love?
Love, talk about love
Why do you always wanna talk about it?
I say love, it's like when you sing
You move to the music when the words don't mean a thing
But, know you've got to clarify
Define it and refine it, align and realign it
Love, talk about love
Why do you always wanna talk about love?
Love, talk about love
Why do you always wanna talk about it?
This love, you don't have to understand
Every little thing between a woman and a man
True love comes from deep inside
Try to use your logic and you'll only lose your mind
Talkin' love, talk about love
Why do you always wanna talk about love?
Love, talk about love
Why do you always wanna talk about it?
Don't talk about just love
Don't have to care about, talk about love
Talkin' love
Don't have to care about, talk about love
