

INFINITY

GALNERYUS

The clouds have broken
Shining stars in the sky
I keep seeing them
And think about my existence I sure know where I'm going
And I know what I should do, too
Life is short, It's sweet, an instant
I will live my best Do it Setting sun sinks
A hazy moon in the sky
I keep seeing them
And I can refresh my memories The season passes early for me
I must begin to move soon
Life is deep It is difficult
I will live my best I swear it now Fly into the night So, I go
I'll not flinch and I'll confront
Because I must find the true self
Look up into the sky So, I do
All of me become peaceful
Because I wanna feel infinity It has stopped raining
There's a rainbow in the sky
I keep seeing them
And think about my existence I know the vanity of living and
I know how I should behave
Life is hard It is not flat
I will live my best I swear it now Fly into the night So, I go
I'll not stop and I will fight
Because I must get the true life
Look up into the sky So, I do
All of me become peaceful
Because I feel infinity The season passes early for me
I must begin to move soon
Life is deep It is difficult
I will live my best I swear it now Fly into the night So, I go
I'll not flinch and I'll confront
Because I must find the true self
Look up into the sky So, I do
All of me become peaceful
Because I feel infinity The life is only once
Even if grief beckons me
I'll not stop and I will fight

Because I must get the true life
I always look up into the sky
I become so peaceful
Because I wanna feel infinity
