## **Love for All Seasons**

## **Christina Aguilera**

Hey there boy did ya happen to know

Wherever you go I'll follow?

Ooh babe you're like a cool breeze

On a summer dayWhen you're near me

I don't know what to do I feel like a fool

Like a school girl true blue girl

Who wants to know can you come out and play? You make me feel the way

A woman is supposed to feel

So let me show you, show you

My love's for realI'll be the rain in your summer the chill in your fall

I'll be watcha want anything at all

I've got a love for all seasons

A love for all timeI'll be the fire in your winter the sun in your spring

I'll do what you want give ya everything

I've got a love for all seasons

A love for all timeI'll be there for you

Keepin' you warm through the storm

I'll guide you stand by you

Until the stars fall from the skyWhen you call me

I never hesitate makin' you wait

For my love never lie love

It's something that I just can't denyI'll read your each and every feelin'

When you need me to

So now I gotta let you know

This love's for youI'll be the rain in your summer the chill in your fall

I'll be watcha want anything at all

I've got a love for all seasons

A love for all timeI'll be the fire in your winter the sun in your spring

I'll do what you want give ya everything

I've got a love for all seasons

A love for all timeYou don't have to search no more

Baby you don't have to dream

'Cause what I've got inside for you

Is all that you'll ever needYou don't have to search no more

My heart is your's for real for sure

You don't have to wonder why

I'll never leave, I'll never lieYou don't have to search no more

My heart is your's for real for sure

You don't have to wonder why

I'll never leave, I'll never lieI'll be the rain in your summer the chill in your fall
I'll be watcha want anything at all
I've got a love for all seasons
A love for all timeI'll be the fire in your winter the sun in your spring
I'll do what you want give ya everything
I've got a love for all seasons
