

# Prejudice

## Shelley

We grow and fertilize the semen of hate  
Ignoring our ignorance - daring our fate  
    Predictions were made -  
        generations were lost  
    While the seed is growing day by  
        day in front of us  
We buried tolerance and our respect  
    Became a breeding ground for  
        social dismay  
    Whatever happened to the  
        love-generation  
With black and white hand in hand  
    side by side  
    So preacher dont you preach  
    Hey teacher dont you teach  
    Prejudice - stop the hate  
        No more prejudice -  
        I aint losing my faith  
    Prejudice - stop the hate  
        No more prejudice -  
        I aint losing my faith  
If we could manage just to get along  
    Instead of blaming each other for  
        whats going wrong  
    Education is the secret -  
        the futures in our hands  
    Burn the fields of hate and  
        believe again  
    Teacher dont you teach  
    Preacher dont you preach  
So teacher dont you teach me  
Hey preacher dont you preach  
    Prejudice - stop the hate  
        No more prejudice -  
        I aint losing my faith  
    Prejudice - stop the hate  
        No more prejudice -  
        I aint losing my faith  
    Prejudice - prejudice

Judging one another by the  
colour of skin  
Carefully covering our feelings within  
We solve our problems with a kick  
in the face  
Were living in a world judged by  
colour and race  
So preacher dont you preach  
Hey teacher dont you teach me  
Prejudice - stop the hate  
No more prejudice -  
I aint losing my faith  
Prejudice - stop the hate  
No more prejudice -  
I aint losing my faith  
Prejudice - stop the hate - prejudice  
Prejudice - stop the hate - prejudice
