

Movie

Katie Davis

Youâ€™re the boy in a book
You donâ€™t like movies, canâ€™t stop moving
Youâ€™re moving every time I look

I know what youâ€™re taking
When you leave me in the morning
I know what youâ€™ll be taking
When you leave me without warning

How does it feel to get what you want
So much to lose now youâ€™ve got him
Nowhere to go but down
So get out quick get out

You donâ€™t know what youâ€™re taking
When you leave me in the morning
You donâ€™t know what youâ€™ll be taking
When you leave me without warning

I have loved you for so long
I donâ€™t know if I can stop
But where does it leave me when you leave me
Before you leave I better stop this

You say youâ€™ve got to get out
Out of the house out of town
Youâ€™re moving every time I look
So get out quick get out

I donâ€™t care what youâ€™re taking
Take everything I have
I donâ€™t care if youâ€™re leaving
I donâ€™t want it back

I have loved you for so long
I donâ€™t know if I can stop
But where does it leave me when you leave me
Before you leave I better stop this

It may be months until you go

It already feels like youâ€™re gone
Youâ€™re getting out of town
Nowhere to go but down
