

# Melting In The Sun

## Inxs

I'm melting in the sun  
And this is what they call the life  
I suppose too much sun  
Makes a desert Arab say  
"And I really love this country"  
There's a lot I wanna seeGreat expectations  
Of all we seem to be  
And winner  
And winner, winnerDo you wanna make a story up?  
There's enough, it always seems  
If it happened this morning  
Tonight we'll see it on TVGreat expectations  
Of all we seem to be  
Great expectations  
Of all we seem to be  
And the winner  
And the winner, winnerShe was twelve and knew the world  
Her boyfriend knew a dance to this  
Everybody's got advice  
Take a snake, take a ladder  
This is what they call the life  
I'm melting in the sunGreat expectations  
Of all we seem to be  
Great expectations  
Of all we seem to be  
And winner  
And winner, winner
