

# The Way She Walks

## Dirty Loops

I hit this place like so many times before  
It always thieves me wanting more  
I lost my case  
There's nothing that glows on the floor for me to explore  
But then  
Accepting motion like it burns my mind  
Adrenaline is running high  
Because of if so much sugar rush  
And if i save for your rush  
The way she walks  
She walks like a shining light  
She said the rythm i'm just in my way  
The way she walks  
Like silver must with the night  
And i will always be  
Always be  
Always be lost  
The way she walks  
She walks like a shining light  
She said the rythm i'm just in my way  
The way she walks  
Like silver must with the night  
And i will always be  
Always be  
Always be lost  
I lose my guard her prescence gives me these on  
There's no defence within my heart  
And now i know there's something that glows on the floor from one and more  
It's these emotion like it burns my mind  
Adrenaline is running high  
Because of if so much sugar rush  
And if i save for your fly by by by  
The way she walks  
She walks like a shining light  
She said the rythm i'm just in my way  
The way she walks  
Like silver must with the night  
And i will always be  
Always be

Always be lost  
The way she walks  
She walks like a shining light  
She said the rythm i'm just in my way  
The way she walks  
Like silver must with the night  
And i will be always be  
Always be  
Always be lost  
(And i will always be always be always be lost)  
(And i will always be always be always be lost)  
(Solos)  
The way she walks  
(Drum solo)  
The way she walks  
(Drum solo)  
The way she walks  
(And i will always be always be always be lost)  
The way she walks  
She walks like a shining light  
She said the rythm i'm just in my way  
The way she walks  
Like silver must with the night  
And i will always be  
Always be  
Always be lost  
The way she walks  
She walks like a shining light  
She said the rythm i'm just in my way  
The way she walks  
Like silver must with the night  
And i will always be  
And i will always be  
And i will always be  
And i will always be lost
