

# Thinking of You

Ke\$ha

Can I hit you later? 'cause this my jam  
Rolling and my feet up, gold trans am  
Sorry, I can't hear you, and I got plans  
You won't get me naked, you had your chance I know I said I wouldn't talk about you publicly but  
That was before I caught you lying and cheating on me, slot  
I was down for you hardcore  
While you were out trying to score  
Found out you're full of it  
I'm over it so suck my dick I heard our song on the radio  
And I see your face everywhere I go  
I thought I'd call just to let you know  
I've been thinking of you, thinking of you-hoo-hoo  
But now my song's on the radio  
And you see my face everywhere you go  
I thought I'd call just to let you know  
I've been thinking of you, thinking of you-hoo-hoo So I got your message, are you having fun  
With your fugly girlfriend? I've moved on  
Can I hit you later? gotta get to stage  
In a brand new city, getting laid I know I said I wouldn't talk about you publicly but  
That was before I caught you lying and cheating on me, slut  
I was down for you hardcore  
While you were out trying to score  
Found out you're full of it  
I'm over it so suck my dick I heard our song on the radio  
And I see your face everywhere I go  
I thought I'd call just to let you know  
I've been thinking of you, thinking of you-hoo-hoo  
But now my song's on the radio  
And you see my face everywhere you go  
I thought I'd call just to let you know  
I've been thinking of you, thinking of you-hoo-hoo I heard our song on the radio  
And I see your face everywhere I go  
I thought I'd call just to let you know  
I've been thinking of you, thinking of you-hoo-hoo  
But now my song's on the radio  
And you see my face everywhere you go  
I thought I'd call just to let you know  
I've been thinking of you, thinking of you-hoo-hoo
