

Evenfall

Tristania

Call thy name at nightfall
Reach out for thee life's rose
Cast thy veils at sunset
Trespass the waning in my halls Prosperous beauty
Embraced by Eden's heart
Call thy name out tearful
Reveal to me thy deepest loss Cast, make haste my savage wall for an end
Thy savage, bleak night
In life, thy tears grow scarlet For thee, my beloved, we shall freeze
There for this life with thee I bequeath
Like a promise be valid by the sea
I still love in decidety Come desired nightfall
Enchant my grievous loss
Life bewailed at sunset
Trespass the shadows in my heart Arise before me
Bequeath thy grievous loss
Dark at heart I mourn thee
Replace the vigor she once lost Cast, make haste my savage wall for an end
Thy savage, bleak night
In life, thy tears grow scarlet
