

# Office

## Pepper

come down sit right here its OK  
and my words are spoken slurred every single day  
be sure to find some comfort, up against the hallway wall  
I know I could, never have it all  
reaching the next level under  
drinking starts this reflex, so I dial her number  
but the phone was out of order  
last call was made at 2 AM  
some how when it's broken  
yes, its always there to mend yes i.....

stumble don't rumble  
cause you might get killed  
sip but don't tip  
cause your beer you might spill,  
think what you feel  
cause your feelings don't think  
here at this office,  
we know just one drink

so god dont prove me wrong,  
please lord dont prove me wrong again  
oooh whoa  
And I've been living at this adress all week  
attractive cause my hair is dull  
and my clothes are starting to reek  
so when I'm too involved  
with the problems I can't solve  
wrap my fingers around the original quality yes i....

stumble don't rumble  
cause you might get killed  
sip but don't tip  
cause your beer you might spill  
think what you feel  
cause your feelings don't think  
here at this office,  
we know just one drink

(guitar solo)

stumble don't rumble  
cause you might get killed  
sip but don't tip  
cause your beer you might spill  
think what you feel  
cause your feelings don't think  
here at this office,  
we know just one drink

so god dont prove me wrong,  
please lord dont prove me wrong again ooh noo  
ooh don't prove me wrong, oh ah, please lord don't prove me wrong again, again, and again, and  
again-  
no i can't be wrong, ohh no I, don't prove me wrong again ohh noo  
dont; prove me wrong againn ooooh ooooh  
i can't be wrong, please don't prove me wrong again  
  
please lord don't, please lord don't, please lord don't,  
not again  
oh god i.....

stumble dont rumble  
cause you might get killed  
sip but dont tip  
cause your beer you might spill-  
think what you feel, cause your feelings dont think  
here at this office,  
we know just one drink
