

# Seventeen (RKCB Remix)

Tessa Rae

You got a heart that beats too fast  
You get excited and it never lasts  
You got a brain fucked from your past  
All those drugs that numbed you never seem to last  
First you come undone  
Then you always crash  
We grew up together you're part of my past  
Don't know what I was looking for  
I was looking for in you  
Boy when we're together I just feel at peace  
Cruising down the highway going 93  
Now we're at 100 and you're blowing trees  
That's okay with you if that's okay with me  
Feel like I, feel like I, feel like I'm seventeen  
Feel like I, feel like I, feel like I'm seventeen  
Feel like I, feel like I, feel like I'm seventeen  
We roamed the city streets all night  
Driving in my car 'till the morning light  
Every time you left it didn't feel alright  
I was missing you holding on way too tight  
First I came undone then I always crashed  
Shoulda known back then that this would never last  
Don't know what I was looking for  
I was looking for in you  
Boy when we're together I just feel at peace  
Cruising down the highway going 93  
Now we're at 100 and you're blowing tree  
That's okay with you if that's okay with me  
Feel like I, feel like I, feel like I'm seventeen  
Feel like I, feel like I, feel like I'm seventeen  
Feel like I, feel like I, feel like I'm seventeen  
Thought we were just having fun  
Now I see your face and I wanna run  
I can't be seventeen forever  
Promise that I want to  
Can't be seventeen forever  
When you see my face it haunts you  
Boy when we're together I just feel at peace  
Cruising down the highway going 93  
Now we're at 100 and you're blowing tree  
That's okay with you if that's okay with me  
Feel like I, feel like I, feel like I'm seventeen  
Feel like I, feel like I, feel like I'm seventeen  
Feel like I, feel like I, feel like I'm seventeen  
When I'm with you feel like I, feel like I'm seventeen  
The streets that are so bright  
They used to feel so mean  
I loved all of your flaws

And you loved me for me  
We would turn the lights off  
And talk about our dreams Could get pulled over  
Fuck up all our dreams  
You and I together  
City kids it seems  
Looking for some trouble something frivolous Feel like I, feel like I, feel like I'm seventeen  
Feel like I, feel like I, feel like I'm seventeen  
Feel like I, feel like I, feel like I'm seventeen
