

# Underneath the Pressure

## Slightly Stoopid

Underneath those pressure baby  
The tables turned  
Underneath my feet is where the coals do burn  
Underneath the pressure baby  
It's where I lie  
Don't say you love me no  
I don't want to say goodbye to you  
All I got is this here guitar  
Memories of you  
With that thought all up inside my head  
I'm thinkin what the fuck I'mma do without you All alone lying awake in my bed  
Its fuckin' crazy in my head  
Oh no no no no Underneath some pressure  
What is bringing you down?  
Fuckin' find some satisfaction but its nowhere to be found Underneath the pressure baby  
Life goes on  
Time moves on  
Underneath the pressure baby  
Ooo yeah ooo no no no
