

Open Up the Heavens

Cold War Kids

Secrets ain't no good
Their dyes keep on lying
I'm like Robin Hood
I've made myself an island
I'm hiding in the shade
I go dark on summer days
This is the price of my freedomCars, boats, airplanes
I'm bored, insaneDo you know how long I'll wait for you?
Till I'm black and blue
And do you think we all hide from the truth?
In ways, I doNo I'm not looking back no more
The past is close behind
I yelped five-star mo
The passport and the driver
My job is laying low
Camouflage, filming gold
In disguise at the borderCars, boats, airplanes
I'm bored, insaneDo you know how long I'll wait for you?
Till I'm black and blue
And do you think we all hide from the truth?
In ways, I doOpen up the heavens, we're kicking down the gate
Ask you real, real nice
Will you let us stay?
Open up the heavens, we're kicking down the gate
You smile real, real wide
Then slap us in the faceDo you know how long I'll wait for you?
Till I'm black and blue
And do you think we all hide from the truth?
In ways, I doDo you know how long I'll wait for you?
Till I'm black and blue
And do you think we all hide from the truth?
In ways, I doOpen up the heavens, kicking down the gate
We're asking real, real nice
Will you let us stay?
Open up the heavens, kicking down the gate
You smile real, real wide
Then slap us in the face
