

Move On You

Lucky Peterson

Every time I see you'
I get weak' get weak in my knees
(yeah!)

Standing in the corner looking like'
you belong to me
(yes you do!)

I'm not' trying to say'
That I'm all that
(said I can't do that)

But I know'
how you want it, when you want it,
when you need it'
and to where to put it at
(yes I do)

You just the kind'
of girl I've been looking for'
come on in girl and'
close the door

2nd Verse

You ride in a Lexus and I'm'
just one of your wheels
(yeah!)

Don't turn me too fast girl'
or you're gonna make me lose my thrill
(that's what you're gonna do)

I'd like what you see'
just why you're here with me
(well!)

Keep your body real close girl'
keep me weak in my knees

(that's what you better do)

I ain't never had a girl that do the thing's you do'
come here baby and, close that door

Gonna' make a, move on you
Gotta' make my move on you
Gotta' make my move on you
Gotta' make my move on you
(16 Bar Guitar Solo Outro)
