

Just to See Each Other Again

The Ten Tenors

We will hear the song no one's ever heard
And our souls will dance on the wind
I have dreamed and dreamed what it will be like
Just to see each other again There are roads and gifts that the Gods bestow
Memories in the soul in the end
And the loving heart will not ever rage
Oh, to see each other again God will see you
So nice to say
Can you imagine
Heal me on that day We will have the store of our dreams, my love
I will paint your face on the wheel
And the shadowed world will begin to glow
When see each other again Can you imagine
Heal me on that day We will have the store of our dreams, my love
I will paint your face on the wheel
And the shadowed world will begin to glow
When see each other, just see each other
We're with each other again, just see each other again
