

Ride The Music

Carole King

Wouldn't you like to come with me
On a regular old-fashioned fantasy?
Let the music come and carry you along
Let your mind just wander
Do you want to go for a ride?
Let out the secrets you're keeping inside
It's a miracle to just be alive
Come on, come on, come on, ride the music
There's no magic or mystery
You gotta give yourself a break occasionally
And let the music come and carry you along
Come on, come on, come on, ride the music
