

# Before I Die

## Papa Roach

I'm out here on my own  
I'm giving it a go alone  
I'm begging on my knees  
Is there a God to save me ?  
I've been a wretched soul  
From my heart down to my toes  
I was lost in my disease  
And you were right there screaming  
"Don't change when it's too late"  
Maybe I said the right things wrong  
My one last shot was too far gone  
But if I can I swear that I  
Will live for you before I die  
Maybe I pushed you way too far  
To pull you back from where you are  
But if I can I swear that I  
Will live for you before I die  
From the valley of the dead  
I'm hearing every word you said  
I'm trying to apologize  
But I can't feel my feelings  
Are you giving us some room to grow ?  
Or digging us a deeper hole ?  
You're killing any shred of hope  
For us to believe in  
"Don't change when it's too late"

Maybe I said the right things wrong  
My one last shot was too far gone  
But if I can I swear that I  
Will live for you before I die  
Maybe I pushed you way too far  
To pull you back from where you are  
But if I can I swear that I  
Will live for you before I die  
I'm out here on my own  
I'm sick of being here alone  
I know where I belong  
But I can't find my way home

Find my way home...  
Find my way home...  
Find my way home...  
Find my way !  
Maybe I said the right things wrong  
My one last shot was too far gone  
But if I can I swear that I  
Will live for you before I die  
Maybe I pushed you way too far  
To pull you back from where you are  
But if I can I swear that I  
Will live for you before I die  
Will live for you before I die  
I will live for you before I die
