

Something To Say

Stevie Wonder

There is something that I'd like to say to you.
There are people who will try to put us down.
They will tell us we're too young to see it through, girl;
Try to make us cry.
But don't you worry;
You have me, and I have you. Well, there is something that I think you ought to know.
There are people who will say our love won't grow, oh no;
It's important that you face them with a smile, girl,
And you tell them.
Honey, maybe someday lovin' just might be worth while,
Whoa, yeah.
Well, there is something that I'd like to say,
And there is something that we can do today,
And there is one thing that I know has come our way.
Oh baby,
They can't hurt us though I know they'll try,
And it will work out,
But they won't know why.
And there is something to our love that just can't die. It's important that you face them with a smile, girl;
And you tell them, honey.
Maybe someday, lovin' just might be worth while.
Oh baby,
There is something that I'd like to say,
And there is something that we can do today,
And there is one thing that I know has come our way.
Oh baby,
There is something that I'd like to do.
Well, there is something just for me and you.
Yes, there is something that I'd like to say to you.
Oh, oh, oh,
There is something that I'd like to say,
And there is something that we can do today,
And there is something that I'd like to say to you.
Hey, hey, yeah! And there is something...
