

Suwannee County

[Andrew Combs](#)

Got my feet in the mud and my face to the sky
Standing by the river watching (?) roll by
Got my line in the water and I'm waiting on a bite
If I have to wait forever it'll be alright So if you're ever in Suwannee county
Drive down to where the old river road ends
And walk through the field and wild covered flowers
And you'll find heaven waiting just around the bend Where the stars comes out when the sun goes down
Lay my body on sacred ground
Lost in the wanders of amazing grace
Connect the dots and you can see Gods face
So if you're ever in Suwannee county
And drive down to where the old river road ends
And walk through the field and wild covered flowers
And you'll find heaven waiting just around the bend All these mortal coil I leave behind
Just a pile of dust in a matter of time
And when morning comes in through the trees
It'll fall like a blanket and cover me
So if you're ever in Suwannee county
And drive down to where the old river road ends
And walk through the field and wild covered flowers
And you'll find heaven waiting just around the bend
You'll find heaven waiting just around the bend
