

# Secret Dreams

## Bon Jovi

Riding high, then shot down  
I load my guns to fire another round  
I look deep into your eyes  
And cant run there's nowhere left to hide  
Don't stop, no its much too late  
When the night comes I cant wait  
Oh I live, love to loose control  
It makes me crazy I want to let you know[Chorus:]  
Oh, no, I don't want to fall  
Oh, oh, cant you hear me calling  
All night long in my secret dreams  
You tell me I'm the one  
When I'm next to you, next to you.  
All I want in my secret dreams  
Is you here with me.  
I got to get to you, get to you, get to you. There's a thrill, in the chase  
We wont lose when we meet face to face.  
Love, games a means without and end.  
I go down but Ill be back again  
Through the night with no retreat  
When you're with me in my sleep.[Chorus]
