

Till the End of Time (90's Club Mix)

Jona

Oh, if I should die tomorrow
Oh, please let there, let there be light.
And oh, no need for sorrow
Let's just make love until the morning light. I want you to remember me.
I want you to remember me.
Lean on my legacy until the end of time. La la la la
La la la la
La la la la
La la la la
La la la la
Until the time
Boy, put inside of me,
Go ahead and plant your seed,
Until the end of time? And I'll, if you should die tomorrow,
I'll see you live on inside of me I want you to remember me.
I want you to remember me.
I lean on your legacy baby,
Until the end of time. La la la la
La la la la
La la la la
La la la la
La la la la
Until the time
Oh, baby I don't know
What tomorrow holds.
I'll never know, you'll lead this world alone
Let's make it official
We can make this house a home,
For ever and ever and ever
Until the end of time. Oh, baby
Oh
Until the time
