## MYK

C'mon and you don't stop  
And you don't stop  
And you don't stop  
I was launched off the block, straight to the top  
To yachts with helicopters, I'm so hot  
Paparazzi, blinded by the rocks  
My limousine roll up, the whole world shocked 'cause  
You steppin' out with an entrepreneur  
I copped you more than what you bargained for  
Roll the red carpet, enjoy the profits  
First let's make love in the walk-in closet  
Daddy just made a nine digit deposit  
Believe me sweetie it's not luck, it's logic  
I'm the captain of my destiny  
Used to dream of the things I was blessed to see  
The jewels and the papers, sports cars and such  
There's nothing in the world LL can't touch  
You stood by my side and pushed me so much  
That's why you got them 10 karats, you know what?  
It's so amazing, amazing, amazing  
Life's given my baby, my baby, my baby  
Maybe some day you'll feel, how I feel, it's crazy  
To see my baby is so amazing  
Sing it baby  
I've got riches wall to wall  
Up the stairs and down the hall of  
All the things that we have done  
You got more ideas for us to  
Live our lives and explore  
There is no topping you, you're unstoppable  
It's so amazing, amazing, amazing  
Life's given my baby, my baby, my baby  
Maybe some day you'll feel, how I feel, it's crazy  
To see my baby is so amazing  
  
It's so amazing, your love to me  
It's so amazing, amazing to me  
It's so amazing, your love to me  
It's so amazing, amazing to me

It's alright  
Sometimes you work late at night  
Just as long, as you don't defy my love then it's on  
Slide out to Venice, my game's in order  
Would chip in to vent but the city's on water  
Searchlights and fireworks bling the sky  
A vowel on the end of everything we buy  
Yellow ice in both ears, I loosen up the tie  
I'm lovin' this lifestyle, baby I can't lie  
It feels so good it make a grown man cry  
'Cause I made it out the hood and a lot of my crew died  
I guess I had determination  
And baby girl kept me in the congregation  
Now it's private jets and deep conversation  
Hundred G's a month to show appreciation  
All eyes on us, the cameras flash  
In God we trust, I don't love this cash  
But you was definitely, by my side when my world collapsed  
Now I'm rich for life and I'm payin' you back  
It's so amazing, your love to me  
It's so amazing, amazing to me  
It's so amazing, your love to me  
It's so amazing, amazing to me  
It's so amazing, amazing, amazing  
Life's given my baby, my baby, my baby  
Maybe some day you'll feel, how I feel, it's crazy  
To see my baby is so amazing  
It's so amazing to me
