

# What If I Kissed You Now

Darin

So here we are  
Trying to talk some sense into our hearts  
This can't be love  
We're best of friends, and that should be enough  
But If that's true  
Tell me why I'm holding on to you  
Like I'd never let you go  
What if I kissed you now  
And turned it all around  
What if I kissed you now  
And stars fell to the ground?  
Would I be losing you, if I do, or would you want me too?  
What if I kissed you now

What if I do?  
What's going on?  
Someone's gone and changed our special song  
They dimmed the lights  
See them shine, like planets in our eyes  
Here it comes  
All that I've been missing for so long  
I (could) never let you go  
Oh, did I leave it for too long?  
Has the moment that I've dreamed of come and gone?  
Time will tell, but I know this much is true  
I don't want to dream of anyone but you
