

# Spite Suicide

## The Black Dahlia Murder

Terror be thy name  
Burning thine bridge  
And death the same A year to drain my innocence  
And course it through  
Your blackened veins Oh, Demoness  
What has our daughter become?  
(Oh, Demoness) Trash for the maggots to eat?  
What color eyes should be  
Staring at me in my dreams? Abomination born in this union of hate  
(Killed in the name of the free)  
And of our son to the sickle he clung  
A featureless face for your nightmarish dreams Dilate, extract  
Dilate and bury it all Mother, vampiric mistress of night-fed blood  
Who pets her child's head from a grave (Demon)  
Enchantress of evil profound  
Dead and nameless, dead  
(A noose to choke the memories from me) Addicted to those forbidden hands  
Thrust deep inside her helpless hull (Scrape)  
Scrape it all away  
Vacuum these pictures from my brain  
Scrape it all away How I shall laugh once you have died?  
How I will sleep once you've been destroyed?  
(Destroyed, destroyed, destroyed, destroyed) Dilate, extract  
Dilate and bury it dead Mother, vampiric mistress of night-fed blood  
Who pets her child's head from a grave (Demon)  
Enchantress of evil profound  
Dead and nameless, dead  
(A noose to choke the memories from me) Dead
