

Emergency Room

Engineers

Whoa whoa, whooa

whoa, whoaa.

Ey

Rihanna:

I was picking up your clothes in the closet (closet)

I was about to throw your jeans in the washer (washer)

'Til I saw a piece of paper saying Tasha (Tasha)

I gotta say I found this a bit shockin (shockin)

It's on receipts here to tell you went shoppin (shoppin)

You bought some Nike shoes

But why you buying stockings?

Boy how could you lie to me

Thought you would die for me

I'm not acceptin another apology

After 3 years, Ima let it go

I ain't standin around crying no more

Got your bags packed sitting by the door

Ima leave your heart broken on the floor

You're gonna be in the emergency room

I'm standing by your bed

and so tempted to pull out your I.V

You're gonna be in the emergency room

I'm fighting with myself

I can't hurt you even though you hurt me

You're gonna be in the emergency room

Tryin to call a nurse but nobody can help you now

Let me see you try to live without me

Now where's your heartbeat

Flat line on the EKG

well, I was home late at night watching TV

Got a call from my girl saying "RiRi

Saw your man in the club

i thought he was out of town doing business

said that he'd be back in three weeks?"

And now I'm mad

Sitting in the kitchen gettin sad

Looking at your pictures

Boy, How could you lie to me

Thought you would die for me

I'm not acceptin another apology

After 3 years, Ima let it go
cant standing around crying no more
Got your bags packed sitting by the door
Ima leave your heart broken on the floor
You're gonna be in the emergency room
I'm standing by your bed
and so tempted to pull out your I.V
You're gonna be in the emergency room
I'm fighting with myself
I can't hurt you even though you hurt me
You're gonna be in the emergency room
Tryin to call a nurse but nobody can help you now
Let me see you try to live without me
Now where's your heartbeat
Flatline on the EKG

Akon:

I did you wrong, girl
Had a bunch of numbers in my phone, girl (I did)
But we been in this relationship too long, girl
For you to be listenin to your silly home girls
Better go on, girl
Now baby think about it (think about it)
Everything we do they gonna read about it (read about it)
Put it on a radio and TV outlet
Do you want to see your picture in that paper
You know them haters
You hear that 808
The drum, that's my heart beat
I'm going numb, I said Rihanna, I'm feeling stressed
I'm going under cardiac arrest

Rihanna:

You're gonna be in the emergency room
I'm standing by your bed
and so tempted to pull out your IV
You're gonna be in the emergency room
I'm fighting with myself
I can't hurt you even though you hurt me
You're gonna be in the emergency room
Trying to call a nurse but nobody can help you now
Let me see you try to live without me
Now where's your heart beat
Flat line on the EKG
Flat line on the EKG
